101 Strategic Planning for Roofing Start-Ups:

This course is designed specifically for entrepreneurs and small business owners in the roofing industry who are in the process of launching or scaling their start-up businesses. Participants will gain a comprehensive understanding of strategic planning tailored to their industry, utilizing proven tools from Grove International Consultants, such as the SPOT Matrix and the Context Map. Through practical exercises, participants will assess both their internal capabilities and external market conditions. By the end of the course, each participant will develop a personalized 90-Day Gameplan designed to position their business for growth and success in a competitive market.

Learning Objectives

1. Assess – Evaluate your business's internal strengths, weaknesses, opportunities, and threats using the SPOT Matrix tool.

2. Analyze – Conduct a thorough market analysis to identify external trends, risks, and opportunities using the Context Map.

3. Strategize – Develop a strategic vision for your roofing business start-up that aligns with current industry conditions and your business objectives.

4. Plan – Create a detailed 90-Day Gameplan to guide your business launch or growth efforts, focusing on actionable steps for marketing, operations, and financial management.

5. Apply – Implement the strategies and plans developed in class, ensuring a structured approach to achieving short-term and long-term business milestones.

6. Reflect – Continuously evaluate and refine your business strategies based on real-world feedback and evolving market dynamics.

102 Strategic Leadership & Management for Roofing Scale-Ups

This advanced course is designed for business owners and leaders in the roofing industry who are ready to scale their companies by setting a clear direction and motivating their teams for growth. Participants will explore the Drexler-Sibbet Team Performance Model to enhance team alignment and performance. Through strategic tools like the Grove International History Graph and Vision Mandala, leaders will create a compelling one-year vision for their company. They will also develop critical systems, processes, and workflows to ensure effective execution of their strategic growth plans. By the end of the course, participants will have a structured 90-Day Gameplan to begin scaling their businesses.

Learning Objectives

1. Assess – Evaluate your business's readiness for scaling by analyzing team performance, current business capabilities, and potential challenges.

2. Align– Apply the Drexler-Sibbet Team Performance Model to improve team alignment, trust, and collaboration for long-term business success.

3. Envision– Create a one-year business vision using Grove International's History Graph and Vision Mandala, setting strategic growth goals and milestones.

4. Design– Develop scalable systems, processes, and workflows that support sustainable business operations and rapid growth.

5. Plan – Create a detailed 90-Day Gameplan to guide your business launch or growth efforts, focusing on actionable steps for marketing, operations, and financial management.

6. Implement– Lead your business through the execution phase, ensuring that strategies are successfully translated into actionable steps for growth.

7. Evaluate– Monitor and refine your business systems and strategies based on performance metrics, team feedback, and evolving market needs.
